

Credit Recovery and Additional Original Credit Options

BYU Independent Study-

BYU offers both original and remediation credit. Courses through BYU independent study are accessed through Canvas, and are completely online. All courses have pre-tests for the course, and at the beginning of each unit. At the end of each unit there is a unit quiz, so you can evaluate your comprehension of the unit. Once coursework is complete, a proctored final exam is required and must be passed at 50% competency to receive credit. If the final is not passed at 50%, students may re-take up to 3 times, at no additional cost. All courses must be completed within 90 days. All remediation grades are “P” only. Letter grades are not awarded for remediation. Original credit will receive a letter grade. Students can sign up for multiple courses during the 90-day limit at no additional charge.

Northridge Learning Center-

Northridge offers both original and remediation credit. Courses through Northridge are booklet based with a few Canvas assignments. At the end of each chapter there is a chapter quiz, so you can evaluate your comprehension of that chapter. Once the booklet and canvas course are 100% complete, a proctored final exam is required and must be passed at 60% competency to receive credit. If the final is not passed at 60%, students have a one-time exam re-take for a \$10 fee. All courses must be completed within 90 days. All remediation grades are “P” only. Letter grades are not awarded for remediation. Original credit will receive a letter grade. Each .25 credit (original or remediation) costs \$40.

Utah Students Connect-

Utah Students Connect is a consortium of seven Utah school districts. Through this program, Murray School District students in grades 9-12 have access to 24 courses, ranging from mathematics to physical education. The online courses are free during the school year for those who are enrolled in first-time credits (There is a fee for summer registration). The classes are completed via Canvas which allows each student to work at their own pace. Each online class is facilitated by a teacher from one of the seven participating districts. Although students are not physically in a classroom, they are able to receive much of the help and instruction that they would in a traditional classroom setting.

BYU

\$40 unlimited courses for 90 days

90-day course completion

80% of assignments completed

Course pre-test

Unit pre-test
