4.     **New Hall Pass:** Mr. Linde informed the board that the new electronic hall pass system has been implemented over the past few weeks. He demonstrated how the system works and some of the information gathered with the system. For example, there are 300 – 400 hall passes created a day. This helps to see the workload that is placed upon the 2 hall monitors. Since they are both part-time, often there is only 1 hall monitor in the school at a time. Board members expressed their excitement to see the program fully implemented next school year.
