Principal Linde also mentioned that vape sensors are being installed at MHS beginning on Wednesday, Nov. 15, 2023.

4. [Flex Data Review Term 1](#) – Although the data is limited since it's only been 1 term of the new Flex system, the data does indicate that Flex is a valuable tool for positive change. It seems to help students getting B and C grades to attain A grades. Thus far in Term 2 there have been 2,186 Flex passes.

Principal Linde shared that there is a great deal of frustration and concern from teachers regarding student cell phone usage during class time. Not only does cell phone use impact students academically, it also affects their mental health and their proper interaction with other people.
Mr. Linde encouraged the SCC members to communicate with other parents in the community for discussion, suggestions, ideas, and strategies for overcoming this serious obstacle to student learning and engagement. The SCC members determined to get a group together for a study session/round table discussion on Tuesday, December 12, 2023 in the MHS main office conference room.

5. [TSSA Amendments](#) – awaiting board approval – The TSSA Amendments were approved by the board on November 9, 2023.
